Section C Attachment A

| PERMIT ISSUE  | PERMIT TYPE       | EFF. DATE |
|---|-------------------|-----------|
| Miscertification Rate Applied to Summary Category     | II                | 8/08/00   |
| 3 sub cores for VOC solids                            | II                | 8/08/00   |
| Accuracy Range for Creosols and Pyridine              | II                | 8/08/00   |
| Headspace Gas Sampling Req. for Homogenous Solid      | II                | 8/08/00   |
| Expanding TIC discussions to Solid Sampling           | Clarification     | 8/25/00   |
| Helium Leak Test Requirements                         | Clarification     | 8/25/00   |
| Appendix VII VOC Library                              | Clarification     | 8/25/00   |
| CAO interpretation of WAP requirement B 1-3a          | I Clarification I | 8/25/00   |
| Leak Checks for Summa Canisters                       | I                 | 8/25/00   |
| Leak Checks for Head Space Gas Sampling Manifold Sys. | I                 | 8/25/00   |
| Min. Amt. of Characterization Needed for Debris Waste | Clarification     | 8/25/00   |
| Retrofit of Past Class I Mods                         | I                 | 8/25/00   |
| Obtain Approval for Use of 100 Gal. Container at WIPP | I                 | 8/25/00   |
| Allow Cornpositing of Headspace Gas Samples for Anal. | I                 | 8/25/00   |
| Elimination of Filter Vent Requirements               | I                 | 8/25/00   |
